WHEN KIDS NEED MEDS: EVERYTHING A PARENT NEEDS TO KNOW ABOUT PSYCHIATRIC MEDICATION AND YOUNGSTERS

Createspace, United States, 2012. Paperback. Book Condition: New. 203 x 133 mm. Language: English . Brand New Book ***** Print on Demand *****.A nationally known psychiatrist and author specializing in children and adolescents, Henry A. Paul M.D. has practiced in New York City for over thirty years, and has appeared on hundreds of national and local television and radio shows. He has evaluated, treated, and prescribed medication for literally thousands of young people in settings that include hospitals, outpatient public clinics, residences, foster agencies, and in private practice, and has followed the progress of many of them over the course of many years. As a result of his specialty, Dr. Paul has experience prescribing all of the current psychotropic drugs, and has treated children and teenagers with all the varied disorders listed in the current psychiatric diagnostic manuals. All too often, such feelings arise from the biased, misleading, and even fabricated stories that are conveyed through the media. In *When Kids Need Meds*, Dr. Paul discusses mental disorders, explains the process of psychiatric evaluation, answers many questions, and talks about stimulants, antidepressants, antipsychotics, mood stabilizers, sleep medications, anti-anxiety drugs and others. He also stresses the importance of non-medication therapies and provides references for readers to obtain more information. Friendly and easy to use and...
