Reviews

A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).

What will happen if I give my nine-year-old a cell phone? In *The Parent App*, Lynn Schofield Clark provides what families have been sorely lacking: smart, sensitive, and effective strategies for coping with the dilemmas of digital and mobile media in modern life. Clark set about interviewing scores of mothers and fathers, identifying not only their various approaches, but how they differ according to family income. Parents in upper-income families encourage their children to use media to enhance their education and self-development and to avoid use that might distract them from goals of high achievement. Lower income families, in contrast, encourage the use of digital and mobile media in ways that are respectful, compliant toward parents, and family-focused. Each approach has its own benefits and drawbacks, and whatever the parenting style or economic bracket, parents experience anxiety about how to manage new technology. With the understanding of a parent of teens and the rigor of a social scientist, Clark tackles a host of issues, such as family communication, online predators, cyber bullying, sexting, gamer drop-outs, helicopter parenting, technological monitoring, the effectiveness of strict controls, and much more. *The Parent App* is more than an advice manual. As Clark admits, technology changes too rapidly for that. Rather, she puts parenting in context, exploring the meaning of media challenges and the consequences of our...
