According to Philostratos, Apollonios of Tyana, on his return from India, described the gold-digging griffins, that they were sacred to the sun (his chariot is represented as drawn by them), about the size of lions, but stronger because winged; that their wings were of a reddish membrane, and their flight was low and spiral; and that they overpowered lions, elephants and dragons 0--i.e., large serpents. Such, then, is the archaic legend, which is practically summed up in the statement that the horse-hating, keen-mouthed, unbarking, egg-laying, goldguarding Gryphons (eagle-lions) lived in the far East, were sacred to the sun, and fought with Amazon and one-eyed Arimasian. I will next further illustrate the legend by noticing some instances of the treatment of the Gryphon in art. III.--The Gryphon In Art. The following instances of the Gryphon in art are not...
