Lucis Press Ltd. Paperback. Book Condition: new. BRAND NEW, Consciousness of the Atom (2nd Revised edition), Alice A. Bailey, In these chapters the scientific relation of matter and consciousness is discussed as evolution progressively affects the atomic substance of all forms, subjective and objective. The purpose of the lectures was to present "the testimony of science" to this relationship and "to enable the hearers to observe the identical manifestation of these relations and of certain basic laws in successively higher states of being, thus to bring a realisation of the universality of the evolutionary process and its actuality." The teachings and sayings of the Christ are quoted to cement the inescapable link between the scientific and the philosophical, or religious aspects of divinity. Each divine principle can be expressed in terms which relate to any human attribute or activity. Here is the synthesis of life in form. The books of Alice A. Bailey, written in cooperation with a Tibetan...
